

## **Missing: The Coronavirus No Reward but let us know if you find it: Read Pfizers Own Records!**

Once upon a time there was a Covid 19 pandemic, at least we thought there was. We heard it on the news and the hospitals were supposedly packed. People were getting sick - from something. Information from the CDC, FDA and World Health Organization (WHO) admitted that they had no scientific evidence that the coronavirus had never been isolated, purified, cultured and then used to reinfect a healthy specimen under FARR's law, Koch's and/or Rivers postulates . Strange things seem to be going on. If this is a hoax it would have to be bigger than the aspartame scandal that has been sold as an additive when in reality it is a biochemical warfare weapon mass poisoning the world.

I was immediately concerned because when a person is suffering from respiratory failure like the hospitalized patients and also using aspartame I see no way they can survive. Aspartame itself will cause pathological blood coagulation, oxygen deprivation leading to respiratory failure. We have seen the fear mongering leading to mass hysteria with the so-called coronavirus. People are dying but what are they dying from when the virus has not been isolated, purified, cultured and shown to exist or cause any disease symptomologies. Many of the real facts are now surfacing in an article by Dr. Robert O. Young called, "Raising Lazarus From the Dead"

Here is the link: <https://www.drrobertyoung.com/post/raising-lazarus-from-the-dead>

Why has there been so much controversy around viruses and especially the coronavirus?

Dr. Anthony Fauci stated in 2017 to expect this pandemic during the Trump administration. How would he know this unless it was planned. Were the democrats, radical left, liberal owned media and the technocrats trying to get President Trump out of office. I believe that the radical left didn't like the fact President Trump wanted to drain the swamp and they stated before he was elected they would impeach him.

The next question that keeps coming up is why would doctors and research scientists be forbidden to do patient autopsies on coronavirus fatalities to determine the actual cause of death. If that wasn't strange enough those packed hospitals were shown to be almost empty when Jon Rappoport of "No More Fake News" started taking pictures in New York. Where were the lines of people? Pictures of empty hospitals were making the statement that this pandemic may be a plandemic. "Oops," said CNN and apologized for using the wrong film saying they got it mixed up with a news film that aired in Italy.

So, I got in touch with our Mission Possible Italy, Enrico Remondini, and asked what was going on. He said there were a lot of old people, usually over 80, that were sick with medical problems and thought they were trying to bring in the New World Order. Not only had they installed 5-G in the hospital (radiation poisoning) but they had mandated the H1N1 vaccine. No wonder they were sick." Dr. Russell Blaylock had immediately notified me when the flu vaccine was being used. He did this because he knew when they were pushing it on pregnant women they would lose their babies. I warned many women about the effects of this vaccine and in a very short period of time 35 women had called to say they had miscarried after the H1N1 injection. The FDA knew the potential fatal side effects of this vaccine, yet said pregnant women and children first. FDA also said patients who are pregnant can use the mRNA vaccine when Pfizer's own information says that it should NOT be given to pregnant women because it may cause birth defects and even death to the unborn. The interesting thing is at first they said no to pregnant women and then changed. Likewise the UK said no to pregnant women and no sex for so many days afterward, yet changed as well. So they both had full knowledge.

I really find it unusual that influenza has disappeared and every death imaginable has become a coronavirus caused death to give the false illusion that there is an infectious virus, called CoVid - 19 and everyone on this planet needs to receive an inoculation to provide immunity against a lethal virus that can cause death. The real problem with the vaccines that have been developed are NOT vaccines but an injection of mRNA from an aborted 11 week old male fetus cultured on kidney cells from a monkey protected by a delivery agent called hydrosol for the purpose of global genetic genocide. This genetic sequence of mRNA has been developed to target and destroy Chromosome 8 or the God gene to disconnect our consciousness or spirit connection to the physical body turning us all into transhumans.

It truly seems that something peculiar is going on!

A man was shot on a motorcycle but it was labeled a death due to the coronavirus. The same thing happened when a woman drowned. Now it doesn't make any difference how or what the patient died from - deaths are wrongfully being labeled as caused by a non-existent coronavirus. The many empty hospitals of sick patients could not survive without funding from our government in order to keep the hospitals in business. This special funding from the Government rewarded hospitals to change all death certificates to coronavirus deaths regardless of other health conditions such as diabetes, heart disease and even cancer. If a ventilator was used the hospital would receive an extra \$19,000. Many very good doctors complained about wrong treatments and over-treating. One of these doctors was Dr. Cameron Kyle-Slidell who wanted to leave ICU because the coronavirus protocols being used were killing 50% of the patients. They were putting breathing tubes in people and putting them on ventilators and dialing up the pressure. According to Dr. Cameron Kyle-Slidell the high pressures from ventilators may damage the lungs and cause death - NOT the non-existent fake coronavirus. .

Greedy hospitals and bad doctors and medicine were killing the patients and NOT the coronavirus! You might wonder why they didn't use sodium and potassium bicarbonate IV's, ozone or Hyperbaric oxygen if somebody was having a severe breathing problem. As Dr. Russell Blaylock wrote in his article, "all that was necessary was some IV Vitamin C, Vitamin D, Zinc . . ." Today the FDA is warning physicians to not write about natural treatments for the Coronavirus. If they do the FDA will fine the doctor \$10,000 for each occurrence and/or suspend their license to practice medicine.

If you are still wondering or questioning the non-existence of the coronavirus also known as CoV 2 or CoV 19 please read the following article:

### **PHD VIROLOGIST PROVES COVID19 DOES NOT EXIST**

Click here to read the entire article: <https://projectcamelotportal.com/2021/04/30/phd-virologist-proves-covid19-does-not-exist/>

Dr. Robert Young and many other doctors and scientists have stated that the coronavirus has never been isolated and the CDC has scientific evidence or proof of its existence. This has been the case all along!

Dr. Young's published research studies and including others mentioned above should prove these facts conclusively - that the coronavirus pandemic is a big hoax to force people by fear to take an inoculation for the purpose of human global genetic alteration and genocide and part of a TRANSHUMANIST AGENDA called 2021 and 2030 ...as he has been stating all along!

So how did they diagnose the corona virus? With the scientifically meaningless PCR test that said "do not use for diagnosis". No wonder Big Pharma bought it. Some might get more inquisitive and tell they knew all along if they had to diagnose something that wasn't real use a test that is inappropriate:

Information coming out on the so-called vaccine is one horror story: <https://www.bitchute.com/video/kANLWaixyeim/>

Reports come in constantly about clots from this killer called a vaccine destroying the lives of the people. They stopped the J & J for awhile and confirmed it as true. Then they turned right around and started them again completely disregarding the loss of lives. They said they would add a warning. Do you think before they plunge the needle they say "we are warning you may get a clot and die?"

Here is information on blood coagulation by Dr. Robert Young:

1. <https://www.drrobertyoung.com/post/doctor-exposes-the-corona-effect-covid-is-blood-coagulation>

2. <https://www.drrobertyoung.com/post/the-terrain-theory-vs-the-germ-theory>

If you still have questions listen to Dr. Judy Mikovits answer them.

[http://mediaarchives.gsradio.net/renew/special/renew\\_043021\\_hr3.mp3](http://mediaarchives.gsradio.net/renew/special/renew_043021_hr3.mp3) Incredible radio interview. This is what they have been keeping from the public while millions of lives have been destroyed, and even babies in their mothers womb waiting to be born.

[Y%20%20rALPH%20wALTON&ref=nb\\_sb\\_noss&url=search-alias%3Dstripbooks](https://www.amazon.com/dp/B000APLPHW) Be sure to read Dr.

Mikovits book, "Plague of

Corruption".

Now they have vaxxed the public with deaths being reported daily some of them within hours of the shot. The unvaxxed who have tried to save their lives from this deadly jab are reacting just being around those who took the shot. Below it's straight from the company's records. They knew in advance what would happen:

Dr. Betty Martini, D.Hum, Founder  
Mission Possible World Health Intl  
9270 Riverclub Parkway  
Duluth, Georgia 30097

**Attached is the 146 page document taken from Pfizer website**

**- [https://media.tghn.org/medialibrary/2020/11/C4591001\\_Clinical\\_Protocol\\_Nov2020\\_Pfizer\\_BioNTech.pdf](https://media.tghn.org/medialibrary/2020/11/C4591001_Clinical_Protocol_Nov2020_Pfizer_BioNTech.pdf)**

**Jim Stone advises**

# **STAY AWAY FROM THE VAXXED, IT IS OFFICIAL, FROM [PFIZER'S](#) [OWN DOCUMENTS](#)**

**PFIZER'S OWN DOCUMENTS STATE BOTH INHALATION AND SKIN CONTACT WILL TRANSMIT WHATEVER IS IN THE VAX FROM THE VACCINATED TO THE UNVACCINATED AND THAT THE RESULTS ARE DEVASTATING**

Â Here is what just this small portion of this Pfizer document is sayi

1. If a man who was not vaccinated touches a vaccinated woman, or breathes any of the air she breathes, (in other words, walks by her in the office) and he then has sex with his wife, his wife can have an adverse event and she should avoid having children.
2. If a woman who was never vaccinated gets exposed to a woman who was vaccinated, she can:  
miscarry,

B: spontaneously abort,

C. poison a baby via her breast milk

D: Have babies that have cognitive difficulties.

### **8.3.5.3. Occupational Exposure**

"An occupational exposure occurs when a person receives unplanned direct contact with a vaccine test subject, which may or may not lead to the occurrence of an adverse event. These people may include health care providers, family members, and other people who are around the trial participant.

When such exposures happen, the investigator must report them to Pfizer safety within 24 hours of becoming aware of when they happened, regardless of whether or not there is an associated secondary adverse event. This must be reported using the vaccine secondary adverse event report form. SINCE THE INFORMATION DOES NOT PERTAIN TO A PARTICIPANT INVOLVED IN THE STUDY, THE INFORMATION WILL BE KEPT SEPARATE FROM THE STUDY."

**TO CLARIFY:** Vaccine study participants become super spreaders of something, they don't say what it is, but it triggers secondary adverse events in people that never had the vax, when they are exposed to people who did have the vax.

**THIS IS SO BAD that right here, in this little bit of quoted text, it warns that un-vaccinated men who have been exposed to a woman who was vaxxed will then pass whatever is in the vax to another wo**

**Even the relatively small portion of the document I have put below here says the vax triggers spontaneous abortions and reproductive problems when un-vaccinated people are exposed to the vaccinated and that breast milk from a vaccinated mom can harm the infant. And if anyone does not believe it, then click the link above and wade through that enormous and intentionally confusing document. It's for real folks, the vax is indeed the kill shot.**

Do not permit the vaccinated to come anywhere near you, it is now official.

Here is a small portion of this huge document, straight from Pfizer:

**Terms:**

Study intervention - A vaccine test subject.

AE - Adverse event in someone who got the vax.

SAE: An adverse event in someone who was exposed to someone who got the vax.

EDP: Exposure during pregnancy

8.3.5. Exposure During Pregnancy or Breastfeeding, and Occupational Exposure

Exposure to the study intervention under study during pregnancy or breastfeeding and occupational exposure are reportable to Pfizer Safety within 24 hours of investigator awareness.

8.3.5.1. Exposure During Pregnancy

An EDP occurs if:

A female participant is found to be pregnant while receiving or after discontinuing study intervention.

**A male participant who is receiving or has discontinued study intervention exposes a female partner prior to or around the time of conception.**

**A female is found to be pregnant while being exposed or having been exposed to study intervention due to environmental exposure. Below are examples of environmental exposure during pregnancy:**

**A female family member or healthcare provider reports that she is pregnant after having been exposed to the study intervention by inhalation or skin contact.**

**\* A male family member or healthcare provider who has been exposed to the study intervention by inhalation or skin contact then exposes his female partner prior to or around the time of conception.**

**If this vax is not shedding into other people, why would contact between vaccinated and un-vaccinated be an event worth noting? If this vax is not shedding, then WHY does a guy who has been around a vaccinated woman, even if he did not touch her or have sex, need to worry about getting a different woman pregnant?**

[Marilyn comment: Watch this powerful and urgent Critically Thinking episode with Dr Palevsky & Dr Tenpenny and their special guests Dr Carrie Madej, Dr Christiane Northrup, Dr Lee Merritt. Moderated by Maureen MacDonald. Learn More: <https://www.universall...> <https://www.bitchute.com/video/zakWnUVEznLt/>

These doctors tell you that shedding is associated with vaccines. They also tell you this is not a vaccine but an injection and it is incorrect to use the word "transmission". The correct word is "transmission".

At this point in time (30/4/21) they had not identified what is being transmitted. They have their suspicions with relation to the spike protein but no evidence to back this up. I am sure we will hear from them in the future when this is identified..

End Marilyn Comment]

**That's not all, the following is detailed, and far worse.**

The investigator must report EDP to Pfizer Safety within 24 hours of the investigator's

awareness, irrespective of whether an SAE has occurred. The initial information submitted should include the anticipated date of delivery (see below for information related to termination of pregnancy).

If EDP occurs in a participant or a participant's partner, the investigator must report this information to Pfizer Safety on the Vaccine SAE Report Form and an EDP Supplemental Form, regardless of whether an SAE has occurred. Details of the pregnancy will be collected after the start of study intervention and until 6 months after the last dose of study intervention.

If EDP occurs in the setting of environmental exposure, the investigator must report information to Pfizer Safety using the Vaccine SAE Report Form and EDP Supplemental Form. Since the exposure information does not pertain to the participant enrolled in the study, the information is not recorded on a CRF; however, a copy of the completed Vaccine SAE Report Form is maintained in the investigator site file. Follow-up is conducted to obtain general information on the pregnancy and its outcome for all EDP reports with an unknown outcome. The investigator will follow the pregnancy until completion (or until pregnancy termination) and notify Pfizer Safety of the outcome as a follow-up to the initial EDP Supplemental Form. In the case of a live birth, the structural integrity of the neonate can be assessed at the time of birth. In the event of a termination, the reason(s) for termination should be specified and, if clinically possible, the structural integrity of the terminated foetus should be assessed by gross visual inspection (unless preprocedure test findings are conclusive for a congenital anomaly and the findings are reported). Abnormal pregnancy outcomes are considered SAEs. If the outcome of the pregnancy meets the criteria for an SAE (i.e., ectopic pregnancy, spontaneous abortion, intrauterine fetal demise, neonatal death, or congenital anomaly), the investigator should follow the procedures for reporting SAEs. Additional information about pregnancy outcomes that are reported to Pfizer Safety as SAEs follows:

• Spontaneous abortion including miscarriage and missed abortion;

Neonatal deaths that occur within 1 month of birth should be reported, without regard to causality, as SAEs. In addition, infant deaths after 1 month should be reported as SAEs when the investigator assesses the infant death as related or possibly related to exposure to the study intervention. Additional information regarding the EDP may be requested by the sponsor. Further follow-up of birth outcomes will be handled on a case-by-case basis (e.g., follow-up on preterm infants to identify developmental delays). In the case of paternal exposure, the investigator will provide the participant with the Pregnant Partner Release of Information Form to deliver to his partner. The investigator must document in the source documents that the participant was given the Pregnant Partner Release of Information Form

to provide to his partner.

8.3.5.2. Exposure During Breastfeeding An exposure during breastfeeding occurs if:

A female participant is found to be breastfeeding while receiving or after discontinuing study intervention.

A female is found to be breastfeeding while being exposed or having been exposed to study intervention (i.e., environmental exposure). An example of environmental exposure during breastfeeding is a female family member or healthcare provider who reports that she is breastfeeding after having been exposed to the study intervention by inhalation or skin contact. The investigator must report exposure during breastfeeding to Pfizer Safety within 24 hours of the investigator's awareness, irrespective of whether an SAE has occurred. The information must be reported using the Vaccine SAE Report Form. When exposure during breastfeeding occurs in the setting of environmental exposure, the exposure information does not pertain to the participant enrolled in the study, so the information is not recorded on a CRF. However, a copy of the completed Vaccine SAE Report Form is maintained in the investigator site file. An exposure during breastfeeding report is not created when a Pfizer drug specifically approved for use in breastfeeding women (e.g., vitamins) is administered in accord with authorized use. However, if the infant experiences an SAE associated with such a drug, the SAE is reported together with the exposure during breastfeeding.

## **Here's the clear part of this, that everyone can understand:**

### **8.3.5.3. Occupational Exposure**

**An occupational exposure occurs when a person receives unplanned direct contact with the study intervention, which may or may not lead to the occurrence of an AE. Such persons may include healthcare providers, family members, and other roles that are involved in the trial participant's care. The investigator must report occupational exposure to Pfizer Safety within 24 hours of the investigator's awareness, regardless of whether there is an associated SAE. The information must be reported using the Vaccine SAE Report Form. Since the information does not pertain to a participant enrolled in the study, the information is not recorded on a CRF; however, a copy of the completed Vaccine SAE Report Form is maintained in the**

**investigator site file.**

## **I WILL TRANSLATE THAT**

An occupational exposure occurs when a person receives unplanned direct contact with a vaccine test subject, which may or may not lead to the occurrence of an adverse event. These people may include health care providers, family members, and other people who are around the trial participant.

When such exposures happen, the investigator must report them to Pfizer safety within 24 hours of becoming aware of when they happened, regardless of whether or not there is an associated secondary adverse event. This must be reported using the vaccine secondary adverse event report form. **SINCE THE INFORMATION DOES NOT PERTAIN TO A PARTICIPANT INVOLVED IN THE STUDY, THE INFORMATION WILL BE KEPT SEPARATE FROM THE STUDY.**

India is having their disaster happen now because they started with the vaxxes first, and have more people vaxxed than any other country.
