

## Vaxxed Pilot has heart attack 6 minutes after landing

This is in response to the article entitled, "*Vaxxed Pilot Has Heart Attack 6 Minutes After Landing*"

Which may be found at: [https://rumble.com/v1f7jpx-pilot-suffers-heart-attack-6-minutes-after-landing-in-dallas-speaks-out-chd.html?utm\\_source=salsa&utm\\_medium=email&utm\\_campaign=chdtv&utm\\_term=chdtv&eType=EmailBlastContent&eld=0435e399-e093-42d5-aa1d-4646b4ac245a](https://rumble.com/v1f7jpx-pilot-suffers-heart-attack-6-minutes-after-landing-in-dallas-speaks-out-chd.html?utm_source=salsa&utm_medium=email&utm_campaign=chdtv&utm_term=chdtv&eType=EmailBlastContent&eld=0435e399-e093-42d5-aa1d-4646b4ac245a)

We are asking all pilots who have been vaxxed and then suffer cardiac disease or other problems known as symptoms or diseases originating from the job please get in touch, and come forward to alert the public. There are two pilots on every plane but there is the chance when these pilots suffer the problems caused by the vaxx there can be crashes. Even the National Enquirer wrote "Terror in the Skies" about crashes and said it was Russian Roulette to fly.

There is the same problem with aspartame:

[http://www.mpwhi.com/pilot\\_aspartame\\_alert\\_with\\_letters.htm](http://www.mpwhi.com/pilot_aspartame_alert_with_letters.htm) This was written by neurosurgeon Russell Blaylock, M.D., author of "*Excitotoxins: The Taste That Kills*" and many others. Captain Fred Fox who flew American for 35 years retired because he suffered Afib because of aspartame. He is our representative for aviation safety. He gave us 6 cases just before he left of pilots who had died on aspartame. One of them did not work for American but was an Air Force pilot who crashed his plane on aspartame from a heart attack. Both aspartame and the vaxx are responsible for this problem. In fact, I was given a product in the hospital that had unlabeled aspartame in it and immediately had a heart attack. I then provided this form to take to hospitals so others would not suffer the same problem which could take their life, educating the hospital on aspartame and drug interaction and making them responsible if they give it to you against your informed consent. [http://www.mpwhi.com/aspartame\\_hospital\\_form.htm](http://www.mpwhi.com/aspartame_hospital_form.htm) They are now more careful. Don't go to the hospital without it and you can add other drugs you may be allergic to as well, or other products you don't want in your body such as MSG. The paper contains the chapter on aspartame and drug interaction from the medical text "*Aspartame Disease: An Ignored Epidemic*" by the late Dr. H. J. Roberts.

If you know pilots please pass on this note. Remember the vaxx (not a vaccine but a nano bioweapon) is a systemic poison just like aspartame. Both damage the mitochondria or

powerhouse of the cell and interact with drugs. Aspartame interacts also with vaccines.
